BLDG. Envelope Consultant | J.R.S. Engineering

Merrill Gardens at Lafayette opened in the fall of 2014 and includes over 6,000 square feet of retail space with a public plaza facing the primary boulevard through town. Merrill Gardens provides underground resident & public parking, allowing for a easily accessible space. At over 129,000 square feet, the residential component of this mixed use project provides 72 units housing 85 residents. Our design was the winner of the 2013 NAHB 50+ Innovation Award and won Silver for Best Mixed Use community.
